Mission Statement

The Air Medical Physician Association is an international organization committed to patient-focused, quality critical care transport medicine by promoting excellence in medical direction, research, education, safety, leadership and collaboration.

Call for Nominations

Any MD/DO member of AMPA who can demonstrate active involvement in air medical transport may make a nomination for themselves or another active AMPA member for the offices open to election for the fall of 2016. The following must be submitted to the AMPA office no later than July 15, 2016.

- **Letter of Intent** indicating your ability and willingness to serve as a Board of Trustees members for a two year term, and
- **Personal Statement** that will be distributed to the voting membership with the ballot. MAXIMUM of one typed page, single-spaced, describing your qualifications for, and commitment to, serving on the AMPA Board of Trustees.
- **Copy of current CV**
- **Requirements:** **Active** involvement in air medical transport. Candidates **MUST** be available to attend two Board meetings, and six conference calls per year. Please do not seek office if you are not able to participate.

Positions Available

- **President-Elect**
  Two-year term

- **Secretary-Treasurer**
  Two-year term

- **Three Board Member-at-Large**
  Two-year term

Send your Letter of Intent, Personal Statement and CV electronically to AMPA Nomination Committee c/o Pat Petersen, ppeter1111@aol.com.

Please contact either Chris Fullagar (fullagac@upstate.edu) or Pat Petersen if you have any questions. This is a great opportunity to become involved with AMPA and help to shape the future of critical care air and ground medical transport for physicians.
NEW Non-Voting Board position
“Physician in Training”

The Air Medical Physician Association Board of Trustees approved to place a non-voting physician in training member on its board at the Fall 2015 meeting. The rationale behind this decision is to cultivate interest and provide exposure to future leaders of the Association.

Selection Process

Resident: Any interested resident or fellow should submit their name with a brief statement about their background and why they would like to join the AMPA Board by June 15, 2016. Their statement should include how they feel they can contribute to the mission of AMPA and should be submitted to Pat Petersen, Executive Director of AMPA at ppeter1111@aol.com. Candidates expressing interest to join the AMPA Board must be a member of AMPA, either individually or through the Academic Membership category through their residency program.

AMPA President’s Corner

AMPA has seen an exciting start to 2016. Many of our initiatives are finally coming to fruition. We had an outstanding turnout for CCTMC in Charlotte. Thanks to the work of many individuals, there were some excellent lectures during the main conference and our anatomy program and ultrasound preconferences were very well received. We tried some new things this year to help get the word out. If you were on social media you likely came across our conference hashtag #CCTMC16, which had over 5.5 million impressions by the conclusion of the conference. We also had conference wrap up sessions each day thanks to @EMS_Nation and we even broadcasted a few “teaser” lectures to the world via Periscope for those who couldn't join us this year in hopes that they would see what a great opportunity CCTMC is and join us next year in San Antonio for the full conference. As a proverbial dinosaur I learned much about social media and the potential it has for worldwide collaboration. I even sent my first tweet (follow me @87MD1)! Of course, our official AMPA Twitter account, @AMPAdocs, had a lot of activity as well.

I am also happy to tell you that we have partnered with a new web developer and are in the process of redesigning and expanding the capabilities of our website. You will have the ability to interact with our website seamlessly from your mobile device and we will improve the ability of our members to communicate with each other. We are also working on some resources to help our members with their day-to-day tasks as medical directors and flight physicians.

Looking ahead to AMTC, we will be back in Charlotte in September. We will have our Core Curriculum Part III and a new format for our general membership meeting and forum that you will be hearing more about in the coming weeks. I am looking forward to seeing everyone again in the fall and excited about some of the new ways we will have to interact with and learn from each other.

Christopher Fullagar, MD, EMT-P, FACEP
AMPA President
The Distinguished Physician Award was established in 1993 to recognize a physician who has significantly contributed to the air medicine profession and to recognize lifetime achievement and service to the air medical community. The AMPA Board of Trustees will select the award recipient from nominations of AMPA members submitted by the membership in writing to the AMPA office by August 15, 2016.

The Award carries with it travel to the 2016 AMPA General Membership Meeting in Charlotte, North Carolina and one night's lodging.

**Past AMPA Distinguished Physicians**

- Alex Jablonowski, MD – ’93
- Henry C. Bock, MD – ’94
- Nicholas Benson, MD – ’95
- Lenworth Jacobs, MD – ’96
- Norman Snow, MD – ’97
- Frank Thomas, MD ’98
- William Rutherford, MD – ’99
- Ira J. Blumen, MD – ’00
- Richard Orr, MD – ’01
- David J. Dries, MD – ’02
- Kenneth Williams, MD – ’03
- D. Gregory Powell, MD – ’04
- Robert E. Falcone, MD – ’05
- Catherine Carrubba, MD – ’06
- Stephen H. Thomas, MD – ’07
- Kenneth Robinson, MD – ’08
- Eric R. Swanson, MD – ’09
- Michael W. Brunko, MD – ’10
- Laurie Romig, MD – ’11
- Richard Orr, MD – ’12
- Jack B. Davidoff, MD – ’13
- Daniel G. Hankins, MD – ’14
- Russell D. MacDonald, MD – ’15

Current AMPA Board of Trustee Members are not eligible.

---

**Medical Director of the Year**

It is time for nominations for AMPA’s Medical Director of the Year

In 2000, the Air Medical Physician Association instituted a new annual award in addition to the yearly Distinguished Physician Award. In contrast to the Distinguished Physician Award, which is intended to recognize lifetime achievement and service to AMPA and the air medical community, the Medical Director of the Year is intended to recognize that physician who has made outstanding contributions to his or her own program.

For that reason, AMPA asks that nominations for this award of recognition come from individual programs. We would like to hear from the flight crews, administrators, and/or program staff about the outstanding contributions of their medical director.

The nominee should be an AMPA member and have shown exceptional personal involvement in the program. We are looking for those that are considered an invaluable part of the team’s success and whose contributions to medical direction, education, quality care, outreach, safety, and team morale to be part of the essential fabric of the program...in short, a leader.

Nominations should be in the form of a one-page letter, which outlines qualities for which the medical director should be recognized. Nominations should be made electronically to Pat Petersen at the AMPA office to ppeter1111@aol.com by August 15, 2016.

The Medical Director of the Year will be announced at the AMPA General Membership meeting in Long Beach. Current AMPA Board members are not eligible for the award.
Past Medical Directors of the Year:

2000  **Jeff Hillesland, MD** - Gundersen Lutheran MedLink AIR

2001  **Eric R. Swanson, MD** - University of Utah AirMed

2002  **Jack B. Davidoff, MD** - Mercy Flight Central

2003  **James G. Leker, MD** - Baptist Life Flight

2004  **Mark E. Maertins, MD** - AIRLIFE Denver

2005  **Andrew C. Hawk, MD** - Care Flight Air & Mobile

2006  **Charles Sheppard, MD** - St. John's Life Line

2007  **David Meurer, MD** - Shandscair

2008  **Douglas Floccare, MD** - MIEMSS

2009  **Thomas Scaggs, MD** - Carle Foundation Life Flight

2010  **Howard Werman, MD** - MedFlight of Ohio

2011  **Peter Meyer, MD** - Air Link at Regional West

2012  **Norm Dinerman, MD** - Life Flight of Maine

2013  **Ira J. Blumen, MD** - University of Chicago Aeromedical Network (UCAN)

2014  **Michael Brunko, MD** - Flight for Life Colorado

2015  **Suzanne K. Wedel, MD** - Boston Med Flight

To address this trend, AMPA established the Air Medical Physician Seed Grant Research Award in 2011, to encourage medical students, resident physicians, and fellows to enter the research field. The program provides a $2,500 (US dollar) grant to help the successful applicant conduct a basic science, applied, or clinical research project. These funds will round out new project budgets, rather than sustain current initiatives, and will favor research in air medical, prehospital, or critical care transport.

We received several very competitive grant applications this year, and the following has received grant monies for 2016:

"Enhancing Patient Safety in the Critical Care Environment: Use of portable ultrasound to confirm accurate endotracheal tube placement and prevent unrecognized tube migration" - Benjamin Nicholson, MD, NRP - Principal Investigator; Harinder Dhindsa, MD - Advisor/AMPA Member - Virginia Commonwealth University, Department of Emergency Medicine, Richmond, Virginia.

CONGRATULATIONS to Drs. Nicholson and Dhindsa!

---

RESEARCH SEED GRANT

An increasing number of young physicians are experiencing difficulty finding the resources and support to do research. Consequently, fewer physicians are choosing careers in research, which is a terrible loss to medicine. Subsequently, there are fewer individuals providing meaningful scientific contributions specific to the air medical/critical care transport communities.

AMPA Core Curriculum and Symposium
Charlotte, North Carolina

Saturday, September 24, 2016 - AMPA
Medical Director Core Curriculum:
Part III
This is the third segment of the 3-
part Medical Director Core Curriculum
designed for physicians directing critical
care transport teams. Topics are taken
from Principles and Direction of Air
Medical Transport. Core Curriculum
segments do not need to be taken in any
specific order.

Sunday, September 25, 2016 –
Air Medical Physician Symposium
(AMPS) and Forum
With a new name and a NEW
FORMAT, this year's reinvigorated AMPA
Forum will utilize an interactive series of
focused presentations, panel discussions,
and group problem-solving to address
current challenges faced by physicians
involved in air and ground critical care
transport. Multiple opportunities for
sharing of audience expertise, discussion
of research in progress, group networking,
and committee involvement will
occur. More information about specific
topics and speakers will be provided at the
AMPA website (www.ampa.org), as well as
online registration. Get amp'd up for
AMPS!!

Online registration for both the Core
Curriculum and AMPS will be available at

Sunday, September 25, 2016 - AMPA

Principles & Direction of Air Medical Transport, 2nd Edition

Available in book form, or PDF file; order form attached. Every transport program should have a copy of this text, and if it is not on the crew bookshelf, order one now!
You are all winners!

Please plan now to submit your original research to CCTMC! Submission details will be provided in January, 2017.

THANK YOU! JOB WELL DONE!

The 2016 CCTMC presented April 11-13 in Charlotte, North Carolina again hit some of the highest attendance ever! Over 350 health care professionals, and 26 exhibitors participated, coming from all over the United States, and internationally from Canada, Sweden, Singapore, New Zealand, United Kingdom and the United Arab Emirates. Some comments from attendees included...

I like the laid back atmosphere, and as always, excellent speakers.

Quality of speakers. I haven’t missed one CCTMC in five years and bring a significant number of my staff to this conference.

It’s so pure and free of corporate influence and partying. People come simply to learn how to provide the very best care to really sick people outside the walls of the hospital.

The anatomy program was incredible!

Short 30-minute lecture format was excellent!

Getting updates from extremely competent and experienced people on the latest, literally state-of-the-art and science.

Variety of topics!

The networking is fantastic. Even when there is nothing revolutionary to report, it validates practice and provides a chance for dialogue.

The majority of presentations met my expectations and will in some way, shape, form or modify my management of patients.

Good organization, breadth of topics, quality of speakers.

The half-day Ultrasound Workshop, was presented again this year with continued popularity. Combined with the annual Critical Care Procedural Anatomy Program, the clinical experience that participants receive at CCTMC is stellar!

Thank you to all of the excellent speakers at CCTMC with special appreciation to the following AMPA members who presented at the Critical Care Procedural Anatomy Program, Ultrasound Workshop and the 2016 Critical Care Transport Medicine Conference

Michael Abernethy, MD*

Suits USA, Inc.  
Teleflex  
(sponsor of the Procedural Anatomy Lab)  
University of Maryland, Baltimore County, Department of Emergency Health Services

We're going back to  
San Antonio!!  

CCTMC  
April 10-12, 2017  
Wyndam San Antonio River Walk Hotel

Mark your calendars and plan to attend. Better yet make it a priority to put together a lecture and submit a topic (or several!) to this conference! "Call for Speakers" is open until August 15, 2016. A speaker submission form is attached, and can be downloaded at www.ampa.org

The focus of the CCTMC is clinical and designed to address issues pertinent to the prehospital and emergency care of the critically ill and injured patient. Adult and pediatric as well as neonate and obstetrical care discussions are welcome. Presentation of case studies, or topics geared to enhance the professional image of the healthcare professional are also popular. We will offer Basic and Advanced tracks, including a focus on Peds/Neonates, Advanced Practice Nursing, Quality, and Safety. Lecture length is 30 minutes, including QA, for most lectures. General Sessions and some other lectures (as determined by the selection committee) will be 50 minutes.

Tips:
- Make your lecture transport specific
- Include critical care ground
- Don’t underestimate the knowledge base of the audience. Most CCTMC attendees like to be challenged.
- Include new or innovative practices/technologies
- Include pharmacology
- Include pathophysiology
- We love research!
- We love case studies!
- Participants want to hear cutting-edge, state-of-the-art information

Submit as many topics as you would like to offer to:

2017 CCTMC  
Attn: Pat Petersen  
Ppeter1111@aol.com

NO LATER THAN August 15, 2016

Compensation for presenting at CCTMC is a $100 honorarium per 30-minute lecture ($200 for General Sessions and 50-minute lectures) and complimentary registration to the conference.

AMPA members set the bar high! Please bring your experience and expertise to
CCTMC. Encourage your residents and fellows to submit topics. Physicians are natural educators and help CCTMC maintain a reputation of the best critical care transport conference out there!

Welcome to new AMPA Members!

Entrance Survey
Medical Director Core Curriculum/AMPA Forum
October 18, 2015
Long Beach, California

An entrance survey is conducted annually at the Medical Director Core Curriculum/ Medical Director Forum to determine how AMPA conferences should be structured, and capture trends in member needs for education. The goal is to improve a participant's ability to provide and improve medical direction and oversight of clinical care in the medical transport environment. The results are summarized as follows and give you a "snapshot" of those who participated:

61 Responses

What is your age?
20-30 = 5
31-40 = 18
41-50 = 20
Over 50 = 18

How did you hear about AMPA?
24 Colleague
7 Website
3 AMTC
3 Hospital
2 Program
ACEP
AMPA Member (John McDonald, Ira Blumen, P.S. Martin)
Flight Nurse
Mailing
AsMA Conference

Are you an AMPA member?
44 Yes 15 No
How long have you been an AMPA member?
- < 1 year = 5
- 1 - 5 years = 23
- 6-10 years = 6
- 11-15 years = 4
- > 15 years = 3

Will you renew your AMPA membership?
- Yes = 52
- No = 0

What country do you reside?
- USA = 55
- Thailand = 2
- Canada = 1
- United Kingdom = 1

Are you a medical director?
- Yes = 53
- No = 8

If so, how long have you been a medical director?
- < 1 year = 5
- 1 - 5 years = 23
- 6 - 10 years = 6
- 11 - 20 years = 4
- > 20 years = 3

How much time do you spend on medical direction or on air medical transport activities?
- < 5% = 2
- 5 - 10% = 15
- 11 - 20% = 15
- > 21% = 20

What is your specialty?
- Emergency Medicine/EMS = 50
- Pediatric Critical Care = 5
- Critical Care Medicine = 3
- Family Medicine = 3
- Neonatology = 2
- Trauma/Surgery = 2
- General Surgery = 1
- Aerospace Medicine = 1

Is your transport service CAMTS or EURAMI certified?
- Yes = 46
- No = 7

Rank the following conference motivation factors to the degree of importance to you.
- CME provided (23)
- Location of meeting (22)
- Topics covered (43)

What was other motivation to attend this conference?
- Networking = 6
- Complete Core Curriculum = 6
- CAMTS Standards = 5
- Education = 5
- Program requirement = 5
- Location (AMTC) = 2
- Fellowship = 2
- Improve system = 2
- Topics/HEMS issues = 5
- Personal interest = 5
- Giving a lecture = 4

Who paid for you to attend this preconference?
- Hospital/Program/Employer = 33
- Self = 14
- CME funds = 2

Was approval required for you to attend this preconference?
- Yes = 20
- No = 38

If so, who provided approval for you to attend this preconference?
- Program = 8
- VP/CEO = 3
- Program Director = 2
- Administration = 2
- Department Chair = 2
- CME Director = 2

Have you attended an AMPA preconference before?
- Yes = 33
- No = 23

If yes, what have you learned that you have incorporated into your practice?
- Multiple ideas from Core Part I: Best practice; Topics from Core Part I incorporated into my daily practice as a medical director; use of ketamine in medical transport for pain control and sedation; teaching issues; many ideas - traumatic brain injury; confirms current practice and support
for continued innovation; regulatory knowledge, safety culture;

Has what you have incorporated had any effect on program effectiveness or patient outcome? 27 Yes 6 No
CAMTS and GAMUT updates; pre-oxygenation, pre-RSI, procedure/CQI; crew training and simulation; effective airways; TXA and many others; sets standard for best practice in region where we operate; program preparing for CAMTS review; clarification of changes to CAMTS standards; improved our protocols based on cutting-edge info from conference.

Will you attend all parts of the Core Curriculum? 51 Yes (will attend or have already completed) 1 No

Would you benefit from a Medical Director Certification? 43 Yes 11 No
Not really, as I understand it.
It would be an honor to have such recognition through AMPA. It would be a shame not to capitalize on such a program and dedication of those associated with it. Please strongly consider such an endorsement. It will certainly elevate the brand of AMPA, establish pride in membership, advance and further drive HEMS.
Our facility would like to have this documentation and continuing education certificate for CAMTS.

Please rank these conferences in order of value or benefit to you:
1. Medical Director Core Curriculum
2. AMPA Forum
3. AMTC
4. CCTMC
5. AIRMED Congress

Opportunity!

**Aero Med Flight Physician**

Imagine... an opportunity to truly make a difference within the community in which you serve!

Spectrum Health Aero Med is Michigan's only flight-physician staffed air medical transport program. Aero Med is nationally recognized and accredited by the Commission on Accreditation of Medical Transport Systems. Aero Med has logged more than 16,881 safe patient flights, more than 17,440 safe flight hours and has earned safety awards for 20 consecutive years.

- State of the art hanger with private physician sleeping quarters and full private bathroom
- Full and Part time available with benefits
- Option to work in the ER
- Time to study or relax between flights
- 12 hour shifts. Average 1-2 flights per day
- Excellent for those who love EMS and Flying!

Spectrum Health Aero Med Services and Design:

- Aero Med owns three Sikorsky S-76® helicopters, one of the most powerful and reliable aircrafts in service today
- The cockpit is equipped with a certified instrument flight panel, weather radar, autopilot, and multiple navigation and communication systems
- Trauma and critical care adults, newborns and pediatric patients
- Women with high-risk pregnancies
- Patients with intra-aortic balloon pumps and left ventricular assist devices

See what Spectrum Health is all about: [https://www.flickr.com/photos/spectrumhealth/sets/72157625369497924/show/](https://www.flickr.com/photos/spectrumhealth/sets/72157625369497924/show/)

Spectrum Health is a not-for-profit health system, based in West Michigan, offering a full continuum of care through the Spectrum Health Hospital Group, which is comprised of 12 hospitals, including Helen DeVos Children's Hospital; 180 ambulatory and service sites; 1,300 physicians and advanced practice providers, which include 1,100 members of the Spectrum Health Medical Group; and Priority Health, a health plan with more than 648,000 members.

Spectrum Health is West Michigan's largest employer, with 22,600 employees. The organization provided $294.6 million in community benefit during its 2014 fiscal year.

**Grand Rapids is Located:**

- 35 Minutes from beautiful sandy beaches of Lake Michigan
- 2.5 Hours from Chicago
- 2 Hours from Metro Detroit
- 2.5 Hours from Traverse City Wine Country

To learn more about how you can be a part of this exciting organization, please contact Melissa Costello at Melissa.Costello@spectrumhealth.org

* Your submission will NOT be considered if the objectives and outline are missing.
* A separate set of forms must be completed for all co-presenters.

**CCTMC** will consider state-of-the-art, cutting-edge, advanced clinical topics.

Submit your topic electronically as a Word document to peter1111@aol.com; you will receive confirmation that your submission has been received. Lectures should not exceed 30 minutes including 5 minutes for QA. **CCTMC** offers the primary speaker a $100.00 honorarium per 30-minute lecture, and complimentary registration to the conference (travel expenses are not reimbursed). General Session lectures (as determined by the selection committee) should be 50 minutes including 5 minutes for QA.
